Silane coupling agent SG-Si 902(SG-Si 2100)

Chemical Name: γ -Aminopropylmethyldiethoxysilane

CAS No.: 3179-76-8

Product appearance: Colorless or yellowish clear liquid

Application:

1. The amino silicone made from SG-Si902 in processing fabrics, can make smooth and anti-wrinkle properties of the fabric and reach to an excellent condition.
2. It can be used to enhance the mechanical and electrical properties of the product under dry and hygrometric state.
3. It can modify the surfaces of fillers(metallic oxide, metal powder and so on).
4. It is applied in water-based material, for example sizing material, to maintain its stability

Packing: Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

Storage: Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.

Special care: It has slightly irritation to skin and eye. Personal protection equipment is needed when use this product.
